RK CYLINDER CRM PROJECT DOCUMENTATION

This document provides a comprehensive overview of the project's technical structure, including base configurations, global state management, and an exhaustive reference for every page and API endpoint.

SECTION 1: CORE CONFIGURATION

Directory: src/base

BaseUrl.jsx

Centralized API base URL.

- **BASE_URL:** http://dfcgroup.in/rkapi/public

SECTION 2: GLOBAL STATE AND SECURITY

Directory: src/utils

ContextPanel.jsx

Manages global application state including isPanelUp (System Status) and userInfo (containing branchId and userTypeId).

ProtectedRoute.jsx

A security wrapper that ensures only authenticated users with a valid token can access specific routes.

Local Storage Keys

The following keys are used for session persistence:

- token
- branchId
- userTypeId
- mobile

SECTION 3: AUTHENTICATION AND PROFILE

Directory: src/pages/auth and src/pages/profile

Sign In (SignIn.jsx)

- **API:** POST /api/web-login
- **Input Fields:** Username (Mobile No), Password.
- **Logic:** On successful authentication, stores session data in local storage and redirects the user based on their specific userTypeId.

Sign Up (SignUp.jsx)

- **Status:** UI Shell (Currently a UI-only component with no functional API integration).
- **Input Fields:** Your Name, Your Email, Password, Terms Checkbox.

Forget Password (ForgetPassword.jsx)

- **API:** POST /api/web-send-password
- **Input Fields:** Username (Mobile No), Email.

Change Password (ChangePassword.jsx)

- **API:** POST /api/web-change-password
- **Input Fields:** Old Password, New Password, Username (retrieved from local storage).

SECTION 4: MASTER DATA MANAGEMENT

Directory: src/pages/master

Manufacturer Module

List Page: Displays all manufacturers in a searchable table.

Add Page:

- **API:** POST /api/web-create-manufacturer
- **Fields:** Name, Mobile, Email, State, Address.

Edit Page:

- **Fetch API:** GET /api/web-fetch-manufacturer-by-id/:id
- **Update API:** PUT /api/web-update-manufacturer/:id
- **Fields:** All Add fields plus Manufacturer Status (Active/Inactive).

Vendor Module

List Page: Displays all vendors in a searchable table.

Add Page:

- **API:** POST /api/web-create-vendor
- **Fields:** Name, Mobile, Email, State, Address.

Edit Page:

- **Fetch API:** GET /api/web-fetch-vendor-by-id/:id
- **Update API:** PUT /api/web-update-vendor/:id
- **Fields:** All Add fields plus Vendor Status (Active/Inactive).

SECTION 5: CYLINDER MANAGEMENT

Directory: src/pages/cylinder

Main Cylinder Management

- **API:** GET /api/web-fetch-cylinder-list
- **Creation Fields:** Cylinder Year, Cylinder Date, Vendor ID, Cylinder Count, Batch Numbers.
- **Batch Generation:** Batch numbers are automatically generated via GET /api/web-fetch-batch-no.

Cylinder Details (Sub-Items)

Add Sub:

- **Fields:** ID, Barcode (RK Serial No), Company No, Manufacturer ID, Month, Year, Batch No, Weight.
- **Branch 2 Extension:** Includes Previous Test Date, NTD, and N-Weight.

Edit Sub:

- **API:** PUT /api/web-update-cylinder-new/:id
- **Branch 2 Quality Checks:** Includes depressurization, cleaning, inspection, bung check, and hydro testing.

SECTION 6: USER INTERFACE AND VIEWING MODES

Directory: src/pages/userPage and src/pages/ViewCylinder

Interface Comparison

1. Standard User Interface (UserViewCylinder.jsx)

- **Target Audience:** Users with userTypeId: 1.
- **Experience:** A simplified, single-page utility focused on scanning.
- **Layout:** No sidebar or complex navigation.
- **Navigation:** Features a prominent, direct Logout button on the main page.

2. Admin and Staff Interface (ViewCylinder.jsx)

- **Target Audience:** Users with userTypeId: 2.
- **Experience:** Full Dashboard Mode integrated into the main application.
- **Layout:** Includes the standard Sidebar and Top Navigation bars.
- **Contextual Labels:** Search labels adapt based on location (R K Serial No for Branch 1; Cylinder No for Branch 2).

Shared Data Points

Both views provide the following technical data:

- Vendor Name and Tare Weight
- Registration Date and RK Serial Number
- Cylinder Number and Batch Number
- Month/Year of Manufacture and Manufacturer Name
- Internal RK Batch Number

SECTION 7: REPORTING AND ANALYTICS

Directory: src/pages/reports

Vendor and Manufacturer Reports

- **APIs:** POST /api/fetch-vendor-report | POST /api/fetch-manufacturer-report
- **Export:** Data can be exported to PDF using jspdf and html2canvas.

Date-Range General Reports

- **ReportForm.jsx:** A centralized filter for "From" and "To" date selection.
- **Report One:** Displays RK Serial No, Make, Date, Batch No, and Tare Weight.
- **Report Two:** Specialized data filtering using a similar table structure.

Cylinder Details Report

- **FormCylinderDetails.jsx:** Advanced filtering by date range and specific Vendor.
- **Export:** Supports direct CSV download via POST /api/download-cylinder-details-report.

SECTION 8: INFRASTRUCTURE SUMMARY

Main Entry: main.jsx (Wraps the app in Router, Theme, and App Context Providers).

Iconography: react-icons, lucide-react, heroicons.

UI Frameworks: Material Tailwind, MUI (Material UI), MUI-Datatables.

Utilities: Moment.js for date handling, Axios for HTTP requests.
